Section 1: Installing the Rear fender - without a rack.

Parts List:
2 fenders,
1- pakiT fender strut brace,
nuts, bolts, washers and 1 fender foot. (see image 1).

Tools needed:
1- 4 mm hex wrench
1- 5 mm hex wrench
1-plyers to hold nut

NOTE: We recommend that you read all steps of this manual first, to determine whether you are installing a combination of fenders, racks & fenders, or the rack alone.

Installation steps:
1. Place fender between washers. The fender strut will arrive from the factory with the bolt, washers, nut and fender foot attached to the strut. You will need to take this apart to add the fender between the washers (see image 2 for assembly order). Once assembled, it should look like images 3 and 4. (top and bottom views).
2. Connect rear fender bracket (see image 5) to pakiT rear fender mount using the M6 x 12 button head bolt on the mounting hole, finger tighten for now. (see image 5).

* you may already have this bolt on your bike from the factory.

3. Connect strut to each side of rear drop-out eyelets, using M5 x 8 bolts, finger tighten for now. (see image 6).

*Make sure fender is not rubbing tire.

4. Tighten all the bolts down firmly.

*Your installed fender should look like image 7.
Section 2- Installing your rear fender- with a rack.

Parts in this kit: 1 rear rack top, 1 rack brace, 1 bolt packet includes:
3- M6 x 12 bolts, 1- M5 x 12 button head bolt, 2- M5 x 8 bolts, 4 -5 mm washers.
Fender set and rack sold separately.

1. Attach rack top to brace by matching up points A to A and B to B. Place M6 round head bolts attach loosely for now.

2. Attach fender to rack and brace assembly with M5 x 18 bolt.

The rack top, strut brace and fender should all be in one piece, but not attached to bike yet. (see image 9).

Note: Angle of fender brace should be facing toward the front of the bike, The A & B sockets have flat spots to the rear. If it is not, you will have to flip it around.
3. Connect rear fender bracket to pakiT rear fender mount using the M6 x 12 button head bolt on the mounting hole, finger tighten the bolt for now. (see image 5)

4. Attach the rack brace struts with 2- M5 x 10 bolts to the rack eyelets on frame of bike. Finger tighten for now. (see figure 11).

5. Attach lower struts to drop-out eyelets with 2- M5x 10 bolt. (see image 12).

6. Now tighten all the bolts down firmly.

Rear pakiT fender and rear rack installed. (see image 13).
Section 3- Installing your Front fender

1. Remove the brake socket nut from the front brake mounting hole. (see image 14).

   Image 14

2. Place fender on the front side of the fork, and in between the brake washer and fork. (see image 15).

   Image 15
3. Replace brake socket nut on the back side of the fork making sure to align brake pads so they are not rubbing on the rim. (see image 16).

4. Tighten down firmly. (see image 17).

**Bike Friday Guarantee**

We at Green Gear Cycling, Inc. (Bike Friday) want you, the customer, to be happy with your new bicycle. For direct orders shipped from the factory if your bike does not meet your expectations, you may return the bicycle to us for a full refund, less all shipping charges and a 15% restocking fee (as of 06-01-18). For bikes ordered through a dealer, we allow the dealer to use their own return policy. This applies to the purchase of new Custom and Stock bicycles. In all cases, the return shipping charges are your responsibility. To take advantage of this guarantee, you must notify our service department (800.777.0258 / service@bikefriday.com) within 30 calendar days of your receipt of your bike of your intent to return the bike, and we must receive it in our possession within 35 calendar days of you taking delivery of the bike. We also accept returns on parts within 30 days as long as the part is unused and undamaged. Processing your refund usually takes 2-6 weeks from the time that we receive back your returned item(s).

**Bike Friday Warranty**

As part of the consideration for buyer’s purchase, buyer understands and agrees to the following: Green Gear Cycling warrants your bicycle frameset, including fork purchased from Green Gear Cycling or an authorized Green Gear dealer against defects in workmanship and materials for 10 years. This does not cover paint or powder coat finishes. Green Gear Cycling honors the original manufacturer’s warranty on parts and components against defects in manufacturing. Tubes and tires are sold as-is.

This warranty is expressly limited to the repair or replacement of the defective frame, fork, or defective part at the discretion of Green Gear Cycling. This is the sole remedy of the warranty. This warranty applies only to the original owner and is not transferable.

Claims must be made through Green Gear Cycling or an authorized dealer. Proof of purchase is required. This warranty covers bicycles and components purchased outside of the United States only if purchased through an authorized Green Gear Cycling dealer.
